A CULTURE OF PARTICIPATION AND PERFORMANCE

Sport occupies a central place in the life of Bradfield College. It is woven into the rhythm of each day and reflects our belief that education should nurture the whole person: intellectually, physically, emotionally and socially.

Set within the extraordinary beauty of the Pang Valley, our 280-acre campus provides an exceptional environment in which young people challenge themselves, discover new passions and develop habits that endure long beyond their years at school. Outstanding facilities, expert coaches and ambitious programmes create opportunities for every pupil to thrive, whether they are taking their first steps in a new sport or preparing to compete on the national and international stage.

What truly defines sport at Bradfield, however, is not simply the quality of our facilities or the success of our teams, but the culture that underpins them.

“*We believe excellence and participation are inseparable.*”

Our most successful performance programmes are built upon a community where sport is valued, enjoyed and celebrated by all. Every pupil is encouraged to be active, embrace challenge and experience the lifelong benefits of physical activity, teamwork and healthy competition.

We recognise that every young person arrives with different ambitions, experiences and talents. Some aspire to professional or international sport; others seek the enjoyment of representing their House or discovering a new activity alongside friends.

“*Our role is to provide the environment, expertise and encouragement for every pupil to flourish, ensuring that sport remains a source of confidence, belonging and personal growth throughout their time at Bradfield.*”

THREE PATHWAYS

One sporting community

Our sporting programme is centred on three complementary participation pathways, ensuring every pupil can pursue sport with ambition and purpose. For those with the potential and aspiration to compete at the highest level, Bradfield offers one of the leading school-based talent development environments in the UK. Equally, every pupil is encouraged to embrace sport as an integral part of College life. Across all pathways, pupils benefit from sector-leading pastoral care, expert coaching, exceptional strength and conditioning provision, and a holistic approach to developing confident, resilient young people.

01

HEALTH & RECREATION

An exciting range of activities that enable young peoples to gain the physical, social and mental benefits of being active, without focusing overtly upon competition. Involvement promotes healthy, lifelong participation in physical activity.

Activities include:

Cardio-Tennis	Power Walking
Climbing	Running Club
Dance	Sailing
Golf	Spinning
Hyrox	Strength &
Fitness Suite	Conditioning
Free Swim	Swimming
Mountain Biking	Yoga

02

COMPETITIVE & PARTICIPATORY SPORT

A broad range of team and individual sports with regular fixtures, high-quality coaching and opportunities to represent Bradfield throughout the year. Opportunities exist for pupils to compete at a level suitable for their stage of development.

Sports include:

Athletics	Indoor Hockey
Badminton	Lacrosse
Basketball	Riding
Clay Pigeon Shooting	Squash
Fencing	Swimming
Fives	Target Rifle
Futsal	

03

HIGH PERFORMANCE PATHWAYS

These high-performance programmes provide an elevated level of challenge for young people with the aspiration to pursue performance sport beyond Bradfield. Outstanding levels of support are provided by coaches, and this is complemented by a significant level of commitment from the pupils participating in these pathways.

Sports include:

Cricket	Netball
Football	Tennis
Hockey	Golf

WE PROVIDE A UNIQUE OPPORTUNITY WHICH ENABLES ALL YOUNG PEOPLE TO FLOURISH

Our approach provides every pupil with opportunities to develop important physical literacy skills. This is accomplished in a manner that develops their confidence and builds their resilience, whilst supporting their health and wellbeing.

While we take great pride in the trophies our pupils win and the honours they achieve, these are the result, not the purpose of our approach. Our priority is to develop young people of character: resilient in adversity, humble in success, committed to continual improvement and confident in working as part of a team. These are the qualities that enable sporting excellence and, more importantly, equip our pupils to flourish in every aspect of life.

ROOM TO GROW AND A PLACE TO PERFORM

Our commitment to focusing upon each individual as a person rather than simply as a player ensures that the young people in our care are able to maximise their potential in both in the classroom and on the sports fields. We provide a context and approach within which they develop their overall identity as young men and women. We embrace our formative role in our pupils' sporting journeys, and we strive to create an aspirational culture and supportive environment. This supports our pupils' long-term development in sports, and their personal and professional lives beyond school.

“ Our excellent record is reflected in the many young Bradfieldians who have gone on to achieve scholarships to top US Colleges, or places on some of the most prestigious programmes at British Universities. Similarly, those who have directly entered the professional game are testament to the success of our approach. ”

OUTSTANDING FACILITIES

One sporting community

- 1 9-hole golf course with outdoor practice putting and chipping area
Indoor golf studio with two trackman bays

THE BRADFIELD WAY

A sporting education that lasts a lifetime

Whilst we strive to perform and win, we work to create a compelling environment which serves to maximize the positive impact that sport may have upon a young person's development.

The seven key success criteria which we measure ourselves against, demonstrates our commitment to this approach:

01 | PERFORMANCE OUTCOMES

Team successes and the number of individuals progressing into elite performance programmes beyond Bradfield (academies, professional environments, college/university programmes).

02 | THE QUALITY OF PUPIL EXPERIENCES

Creating meaningful sporting experiences that inspire confidence, enjoyment, personal growth and a lifelong love of physical activity.

03 | LEVELS OF PUPIL PARTICIPATION

Ensuring every pupil has the opportunity to engage, contribute and flourish through sport, regardless of ability or aspiration.

04 | PHYSICAL LITERACY AND UNDERSTANDING

Developing the movement skills, technical excellence and game intelligence that underpin confident, capable and adaptable athletes.

05 | LIFELONG PARTICIPATION

The number of Bradfieldians who continue to participate in regular physical activity after leaving the Sixth Form.

06 | EQUALITY OF PROVISION

Providing every pupil with access to outstanding coaching, facilities and opportunities, regardless of their chosen sport or level of participation.

07 | MONITOR, MANAGE & ADJUST LOAD

How successfully we monitor, manage and adjust the overall physical and cognitive load upon our pupils.

TALENT DEVELOPMENT

Sports Performance and Scholarships

At Bradfield, sport scholarships are not simply awards for past achievement - they are investments in future potential. Our aim is to provide talented young athletes with an environment that enables them to become exceptional performers and exceptional people.

We recognise that every athlete's journey is unique. Therefore, our programmes are designed not only to reward those who have already demonstrated high levels of performance, but also to support those with the attitude, curiosity and commitment to progress further. Selection is based as much upon potential and ambition, as it is upon results.

A DEVELOPMENT ENVIRONMENT BUILT FOR GROWTH

Our Talent Development Programme provides a structure and philosophy that mirrors that of high-performance sport, but in a way that is appropriate for developing adolescents. We take a long-term view of athletic development, ensuring that each individual is challenged and supported in the right way and at the right level, for their stage of maturation. A strong emphasis is placed upon helping athletes develop self-awareness, accountability, and the ability to take ownership of their own performance journeys.

Three interconnected pillars work together to develop our athletes:

Technical-Tactical - a player-centred approach building high technical skills with excellent Game IQ, enabling pupils to make effective decisions under pressure.

Physical Development - sector-leading coaching in movement, strength, speed, and robustness, underpinned by the latest evidence in youth athletic development.

Psychosocial - development of the mental, emotional, and social values and qualities that underpin high performance and long-term wellbeing.

Our scholars work closely with our team of sport-specific coaches, S&C staff and our physiotherapists to optimise training, recovery, and learning. We view performance through a biopsychosocial lens - understanding that confidence, connection, and resilience are just as essential as physical and technical excellence.

THE SCHOLARSHIP EXPERIENCE

Importantly, pupils remain fully integrated within the wider school community. We believe that developing as an athlete should enhance the holistic growth of the young person. Our approach reflects this belief by protecting wellbeing whilst also nurturing ambition. This balance is achieved through access to:

- bespoke athletic development programmes
- additional technical coaching sessions in one-to-one/small group scenarios
- return-to-play support following injury, in-line with that of professional sport organisations
- termly performance reviews including individual goal-setting sessions

LIFE AS A COLLEGE-ATHLETE

Whilst each pupil's final sporting timetable will take into account their academic and wider co-curricular commitments, we aim to achieve the following for pupils who have performance aspirations:

- Total time training or playing sport: 7-12 hrs per week
- Total time in S&C: 2-3 hrs per week
- Total time on supplementary activities such as video analysis and supportive activities e.g. yoga, dance, sprint training etc. or psycho-social elements: 1-3 hrs per week
- Total time allocated to their sporting development: 11-16 hours per week

PROGRESSION AND PATHWAYS

Many of our pupils go on to achieve outstanding success: professional contracts, international honours, and US college scholarships. Yet our greatest measure of success is not only where our pupils end up, but who they become in the process.

By the time they leave Bradfield, we want our athletes to have developed:

The **COMPETENCE** to perform at a high level

The **CONFIDENCE** to take on new challenges

The **CHARACTER** to contribute positively to any environment

PERFORM

Developing the skills, mindset and resilience to perform at the highest level.

GROW

Nurturing character, confidence and ambition to take on the world with purpose

SUCCEED

A global network of opportunities supporting lifelong success in sport and beyond

CRICKET

Cricket sits alongside tennis as the main sport for pupils in the summer term. The College has a rich tradition in the game and our 21 squads across the boys' and girls' game is testament to the popularity of the sport. Pupils benefit from opportunities to develop their game through an extensive year-round training programme which takes place in our five-lane indoor facility, within our impressive sports complex.

COACHING

The pupils have access to five professional coaches who work full time at the College, under the leadership of Rob Ferley, a level four qualified coach and former distinguished county cricketer of some 12 years' experience with both Kent and Nottinghamshire. All the coaches carry a minimum of a level 3 qualification. They have either played professionally (at county or international level) and/or had experience of leading county age group squads. Consequently, the pupils have access to an unrivalled level of expertise.

CRICKET SUCCESS

We take great pride in the achievements of our current and former pupils. Current international players, Lauren Bell and Gus Atkinson have both opened the bowling at test level for England. Ryan Higgins, Harry Came and Zach Lion-Cachet have all become stalwarts of the county game, whilst Ethan Ramsay, Shristi Patil and Pippa Sproul are making a name for themselves as junior international cricketers. The College has built an enviable reputation for developing the stars of the future.

Our teams have also achieved notable successes including the girls' 1st XI being crowned national T20 champions in 2022, before reaching the final of the 100-ball competition at Lords in 2024. They have made numerous other appearances at finals days across U18 and U17 levels. On the boys' side, the U17 team won the national plate competition in 2024, before winning the John Harvery 50 over league as a 1st XI in 2025. Our junior teams regularly win their respective county championships before progressing to the later stages of regional and national competitions.

FACILITIES

We have eight high-quality squares, each of which has its own charming location within the College's beautiful setting in the Pang Valley. Pit is the spiritual home of Bradfield cricket and is regarded by many as one the very finest grounds in the country. Training is well-catered for with two artificial and three grass net blocks.

FOOTBALL

Bradfield has a long-standing reputation as one of the leading schools for football in the UK. We have a tradition of producing teams of high quality, evidenced by our boys' 1st XI being crowned ISFA champions in four of the last seven years. Girls' football is also on an exciting trajectory. We have won our ISFA endorsed seven-a-side tournament twice in the last four years, as well as reaching the quarter final stage of the ISFA Cup in 2025. The game is loved at Bradfield, and the pupils benefit from the 28 teams we run; all of whom play regular fixtures.

COACHING

Our football programme is led by our Head of Performance David Chatwin and Sarah Thompson our I/C Football. David who is a UEFA A Licence coach joined the College in 2023 following a successful career coaching within the Charlton Athletic Academy. Sarah is a current player at Reading, having formerly captained Maidenhead United. The provision for our goalkeepers is also first class as they receive weekly coaching from our A Licence goalkeeper coach.

FOOTBALL SUCCESS

Boys' football has a national reputation for excellence, and we play at the very pinnacle of schools' football in the UK. In addition to their success in the ISFA Cup, they have also won the Independent Schools' HUDL League in 2022 and 2024 and progressed to two semi-finals in the ESFA Super Cup in both 2024 and 2025. Girls' football has also achieved notable success with teams winning the ISFA seven-a-side tournament, the ISFA Southern League twice, as well as being placed runners-up in the ISFA Shield.

Each year, an impressive number of our pupils are selected to represent ISFA sides at various age groups. Additionally, some pupils compete for their full national age-group sides. The quality of the current programme is evidenced by the fact that five players have gone directly from Bradfield into professional contracts, and a significant number of pupils who have achieved scholarships to US Colleges.

FACILITIES

We are blessed with some of the finest playing surfaces around, with the majority of our 11 grass pitches benefitting from high quality drainage and irrigation systems that ensure that they are maintained to a high standard year-round. The futsal programme is played on a full-sized court in our double sports hall.

HOCKEY

Hockey has a rich pedigree at the College with the club achieving significant success at both a regional and national level, alongside impressive participation opportunities through its 32 hockey teams. The sport is led by Ben Hooper, who previously represented England at junior international level and who is now a key member of Reading's Premier League side.

COACHING

Ben Hooper is supported by an experienced team which includes Olympian Kali Takher, Jack Turner who represented both England, and GB, Matt Ruxton who captained Wales at Commonwealth Games level, Roger Wall who has won numerous world cup medals for England vets sides and Charlie Ellison and Mike Rippon who played at national league level for over a decade. Goalkeepers also have excellent provision by way of weekly sessions led by current Reading 1st XI and former GB junior goalkeeper, Chris Wyver.

HOCKEY SUCCESS

The club has a strong tradition of producing high quality players, many of whom go onto play national league hockey, with a number of these representing Reading Hockey Club with whom we have a strong link. Since 2019, an impressive number of our pupils have achieved age group selection for England, Scotland and Wales. Our teams have also achieved notable success with the boys' and girls' sides at various age groups, regularly reaching the later stages of national cups.

The boys' 1st XI finished as national runners up in both 2022 and 2024, whilst the girls qualified for the national indoor finals in 2024.

FACILITIES

We have two floodlit astro turfs on the main College site and an additional pitch at our partner prep school St Andrews. Indoor hockey is catered for in our double sports hall which plays host to the county indoor championships each year.

TENNIS

Bradfield is home to arguably the finest school facilities for tennis in the country. When combined with our six full-time coaches, the support system in place for our pupils is outstanding. In the summer term, the College runs 30 teams, whilst there is a year-round performance programme for those pupils for whom tennis is their focus. Lottie Howard, a Level 4 performance coach guides the College programme which has seen notable success at national level. Bradfield College was named as runner-up in the 2023 LTA Tennis School of the Year Awards.

COACHING

Lottie is supported by a team of five full-time and highly experienced coaches, all of whom are either level 3 or 4 qualified. The depth of this team enables us to offer year-round coaching via performance programme sessions, one-to-one lessons, and small group sessions – as appropriate for each pupil's playing level.

TENNIS SUCCESS

The College has consistently performed outstandingly well at a regional level and, in recent years, has pushed to achieve some notable accomplishments on the national stage. This has included success at both the LTA National Finals and at ISTA Level, where the senior boys team won the U18 team cup in 2022 and were runners up in 2023, whilst the senior girls won the plate competition in both 2022 and 2025. A number of our pupils have progressed from Bradfield to scholarships at US Colleges or to top UK tennis universities.

FACILITIES

Our indoor tennis centre houses three acrylic courts built to the same specification as those used in the Australian Open. We also have six floodlit clay courts that mirror those used in the Stuttgart Open. In the summer months, our provision swells to over 40 tennis courts with an additional seven hard and 24 astro based courts.

NETBALL

During the Lent Term, no fewer than 19 teams represent the College in weekly fixtures. For those for whom netball is a sporting priority, there is also ample opportunity to participate across the Michaelmas Term. Every year group has the opportunity to challenge themselves within various national cup competitions and so the College is proud of the success we achieve across a range of our teams.

COACHING

Netball is led at the College by Charlotte Southall, a level 3 qualified coach with a range of experience in various performance pathways including with Surrey Storm and the England Men's team. She is supported by our Deputy Head of Netball Jane Rees, who previously played for both the Emerging Wales National Squad and Welsh Universities at the British University Games.

NETBALL SUCCESS

The team works hard to develop players during their time at the College, and their efforts have seen several players progress to NPL level. At a team level, the 1st VII were national semi-finalists in the Sisters n Sport Trophy in 2025 and then went a step further in 2026 by reaching the finals before ultimately finishing as Runners Up.

FACILITIES

Our netballers benefit from access to our two-court sports hall, and this enables them to play in a brilliant atmosphere on match days, as two games operate side-by-side. In addition to this, we have several outside hard courts.

COMPETITIVE OPPORTUNITIES
Every year group has the opportunity to compete in a range of national cup competitions.

GOLF

The provision for golf at the College is first-class. Over 200 of our pupils are members of our beautiful par 33, 9-hole golf course which weaves its way through the Pang Valley. Whether it is navigating the significant elevation changes, avoiding the hundreds of mature trees that line the fairways, or staying out of the streams that run through five of the holes, the course provides an excellent location for them to challenge their skills.

For those who want to focus on the performance side of the game, lessons are provided all year round by our resident professional in our state-of-the-art swing studio. There are significant opportunities for pupils across all year groups to compete in regular fixtures against other schools and additional competitions such as the Micklem Tournament, Swifts Foursomes.

200+ PUPIL MEMBERS

COACHING

The pupils benefit from being coached and mentored by our resident PGA Master Professional, Simon McGreal. As a Master Trackman certified coach, Simon is well placed to maximise the benefit our pupils gain from our two-bay swing studio. Simon is ably supported by several teaching staff with significant experience within the game.

9

GOLF SUCCESS

The support the pupils receive facilitates the development of a significant number of single figure players each year, enabling us to compete in the later stages of knockout competitions. We are proud of the number of Bradfieldians who continue their involvement with the game throughout their lives. Many return to represent our high-quality Old Bradfieldian side in the annual Halford Hewitt Competition which is the largest scratch amateur event in the world. Bradfield won the Halford Hewitt Cup in 2025.

FACILITIES

We boast some of the finest school golf facilities in the UK including:

A high-quality par 33, 9-hole golf course

Indoor studio with two trackman swing bays and a putting green

Outside practice area including a putting green, bunker and short game area

A bank of four practice nets

RECENT HIGHLIGHTS

HALFORD HEWITT CUP

Bradfield's Old Bradfieldian side competes annually in the world's largest scratch amateur golf event.

PLAYER DEVELOPMENT

A significant number of pupils develop into single-figure golfers each year.

YEAR-ROUND DEVELOPMENT

Coaching and performance support are available throughout the year under resident PGA Master Professional Simon McGreal.

COMPETITIVE SPORTS

Alongside these high-performance sports, the College offers a further 16 competitive sports across quite a remarkable range of activities. Each of these sports benefits from a Head of Sport who is responsible for ensuring there are multiple weekly training sessions for the pupils to attend, as well as a regular fixture card. The majority of these sport offer both boys' and girls' teams across a range of age levels, enabling a significant number of pupils to apply their skills in fixtures. As with our performance sports, teams enter county, regional and national competitions enabling pupils to pit themselves against high quality opposition, and to enjoy the excitement of a cup run!

The level of coaching within these sports is also excellent, with each having either a full or part time professional coach leading the technical and tactical side of the programmes.

DISCOVER DEVELOP BELONG

SPORTS SCHOLARSHIPS ENTRY POINTS

YEAR 9

At Year 9 and 10 we expect sports scholars to be:

Talented sports performers who have the potential to reach regional, national or international level.

Highly committed individuals who have contributed significantly to the sporting life of their primary/prep school and/or their sports club.

Candidates are typically one of the top performers in their school across one, but ideally two or more sports.

Individuals who admired by peers as a sporting role model and someone who will be motivated to make the most of the resources available to sports scholars.

YEAR 10

YEAR 12

At Year 12, we expect scholars to be:

Demonstrating a level of excellence in their chosen sport.

Candidates are typically already involved in academy, county, regional or national squads.

Please see our sports scholarship page for more information about the application process and what we are looking for in potential scholars.
